

RESOLUTION NO. 08-03

LITTLE COLORADO SANITARY DISTRICT

RESOLUTION TO REPEAL RESOLUTION NO. 08-02 OF THE LITTLE COLORADO SANITARY DISTRICT.

WHEREAS, the Board of Directors of the Little Colorado Sanitary District recognized that there may be circumstances where multiple structures with plumbing are situated on a single piece of property, and the requirement that each structure with plumbing on the single piece of property have its own, separate septic tank, may be excessive and unnecessary; and

WHEREAS, on July 7, 2008 the Board of Directors of the Little Colorado Sanitary District passed Resolution No. 08-02 regarding implementing a policy and procedure by variance for those circumstances where multiple structures with plumbing are situated on a single piece of property; and

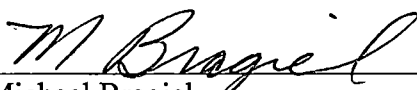

WHEREAS, the Board of Directors of the Little Colorado Sanitary has re-examined the process of dealing with multiple structures on a single parcel of property and feels that a more efficient and effective method of addressing this issue is by amending the District's Rules and Regulations rather than by variance.

THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF THE LITTLE COLORADO SANITARY DISTRICT THAT:

Resolution No. 08-02 is hereby REPEALED.

ADOPTED THIS 6th DAY OF October, 2008.

LITTLE COLORADO SANITARY DISTRICT

Michael Bragiel
